First

Do you have a Google **and** YouTube account?

If not, please read first the UserGuide : Create Google Account

You will find the Userguide at www.interplay-sports.com -> Pro product _Userguides

You need to have these accounts ready for use before you start to upload.

If you have these accounts, please continue with page 3 in this Userguide

Add the emails-addresses to all players and team

Click at Players in Showroom. Select team and add the emails address for each player.

The screenshot shows the 'players' interface. On the left, there's a form for adding a new player to the team 'STABÆK 01'. The 'E-mail:' field contains 'Chri@email.com'. On the right, a grid titled 'Players in the list' shows 13 entries. The first entry is highlighted with a blue background, matching the color of the selected team in the left panel.

Short n	First name	Last name
KA	Kristoffer	Askildsen
CC	Christopher	Cheng
PE	Petter	Dyrkorn
EE	Eirik	Elvestad
HG	Herman	Geelmuyden
LP	LP	Hotvedt
EN	Erik	Nikolaisen
OO	Oscar	Opsahl
HR	Helmer	Rusten
HR	Henrik	Ruud
KS	Kasper	Strom
AV	Adam	Vik
JW	Jacob	Welle

Click at Teams in Showroom. Select team and add the email address to the team (coach)

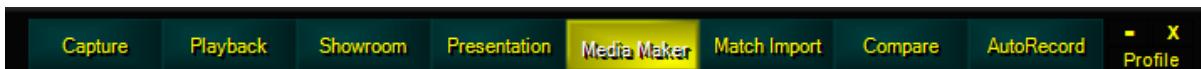

The screenshot shows the 'teams' interface. On the left, there's a form for adding a new team 'STABÆK 01'. The 'E-mail:' field contains 'oystein@iemail.com'. On the right, a grid shows various teams. The team 'STABÆK 01' is highlighted with a blue background, matching the color of the selected team in the left panel.

51	SPAIN
101	STAAL JØRPELAND
43	STABÆK
87	STABÆK 00
140	STABÆK 01
70	START NASJONAL
142	START2
12	STJØRDALS BLINK
120	STORD
41	STROMMEN
34	SVERIGE
119	SVÄRTINGE

All email addresses are unique addresses that will be used as login if players change teams, clubs or change other conditions. It is therefore important that the email address used is an address that is personal to the player and will be used in the future.

Go to Mediamaker:

You can upload videos in Create Media Files and Projects.

1) CREATE MEDIA FILES

Select MP4 that is the Youtube format for upload.

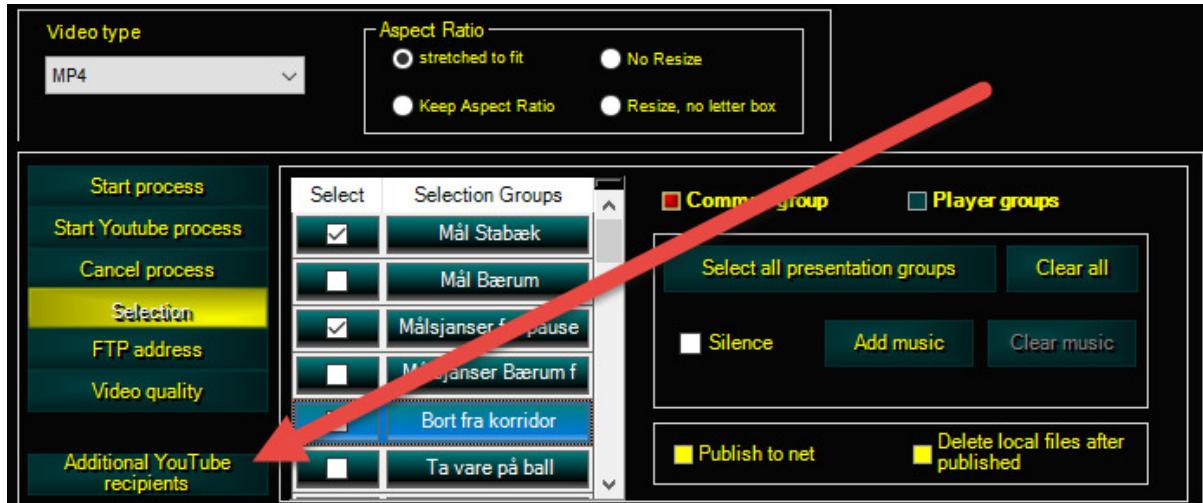

We recommend default settings, but you can change the video quality if needed.

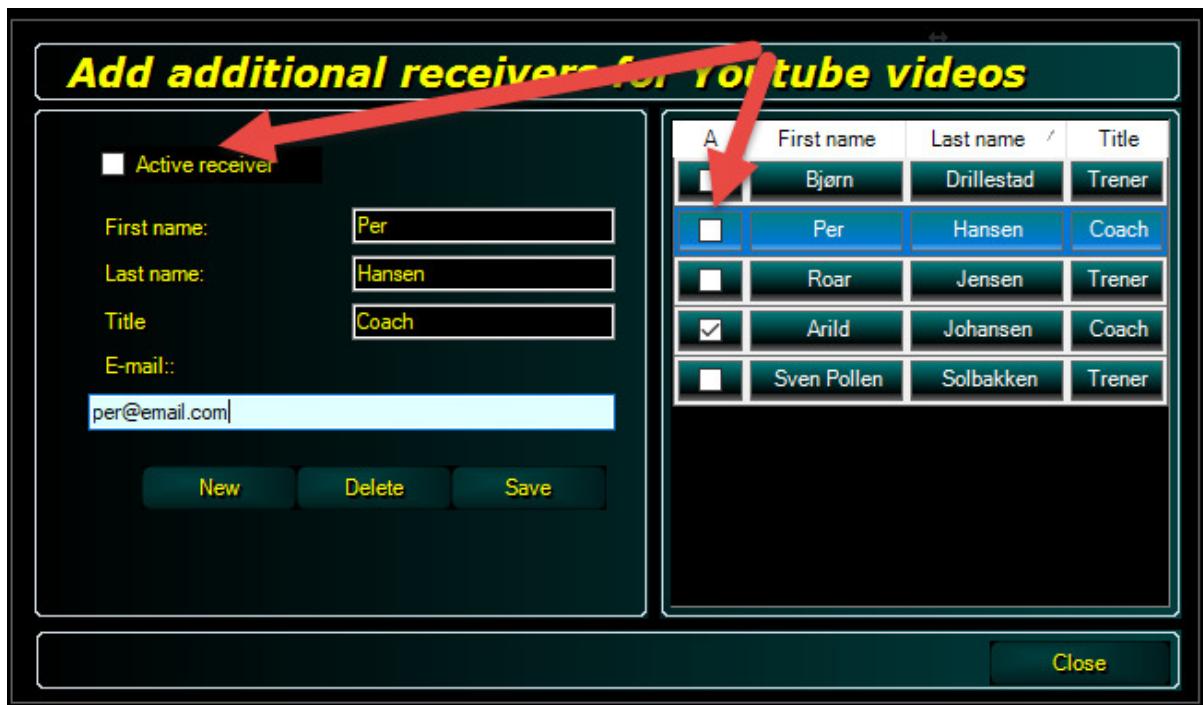

Additional Youtube receivers

You can add additional people as receivers of the videos outside the team. This can be other coaches, federation people, player developers, scouters and others.

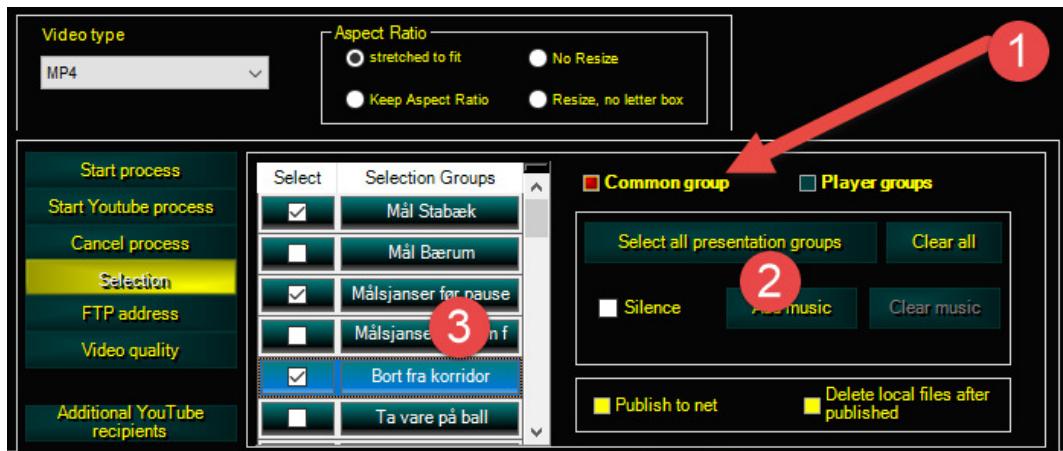

You can easily specify which ones should have video links sent by the groups.

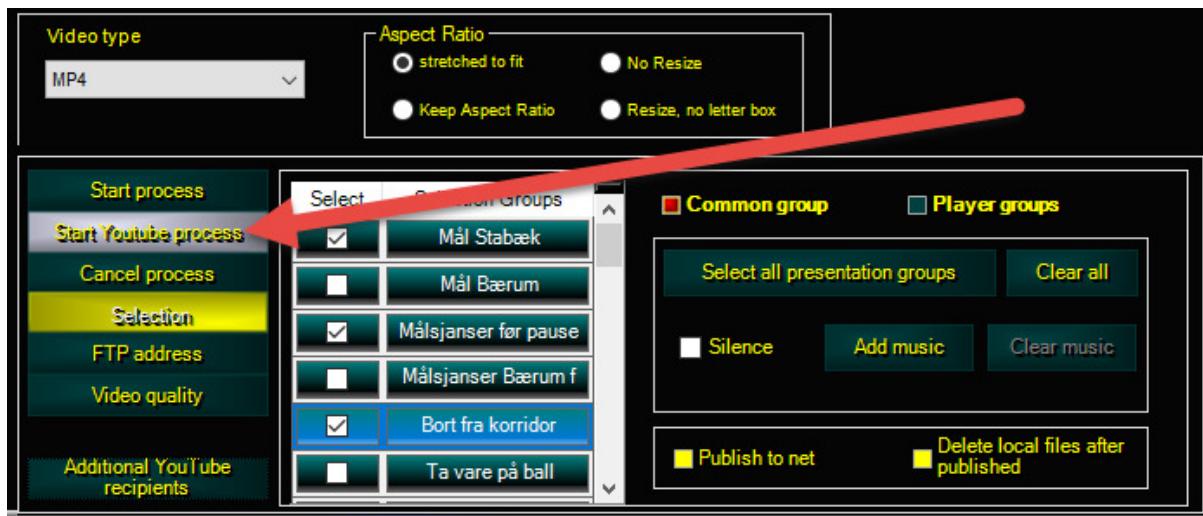

Common groups

Common groups are all groups that is used in the Presentation. These files can also be shared with other people. 1) Select Common groups, 2) Select all or 3) click at selected groups.

Click "Start Youtube process" when you are ready with additional receivers.

("Start process" will as before create videos without upload to Youtube)

The routine will then ask you to select players that should have sent video from the Common Group(s).

Click OK when ready and then will start the creation and upload routines.

Receivers

All selected players will receive a video links to Youtube for all selected Common groups.

All checked additional receivers will receive a video link to Youtube for all selected groups.

Video status

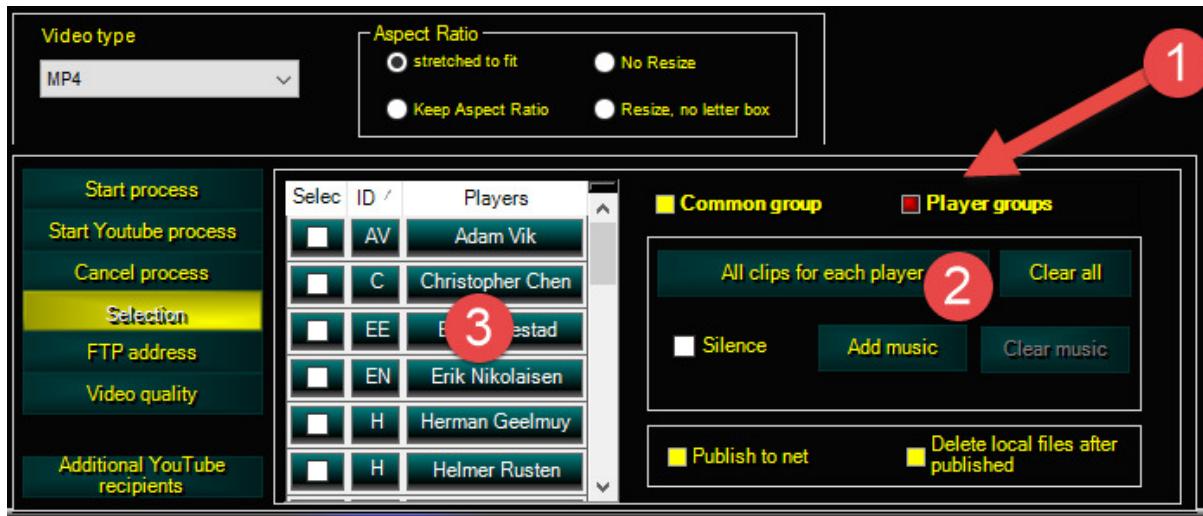

All uploaded videos will be available only from posted links. All videos will have status Unlisted, which is not searchable in Youtube.

That means that all uploaded videos are not available for other people.

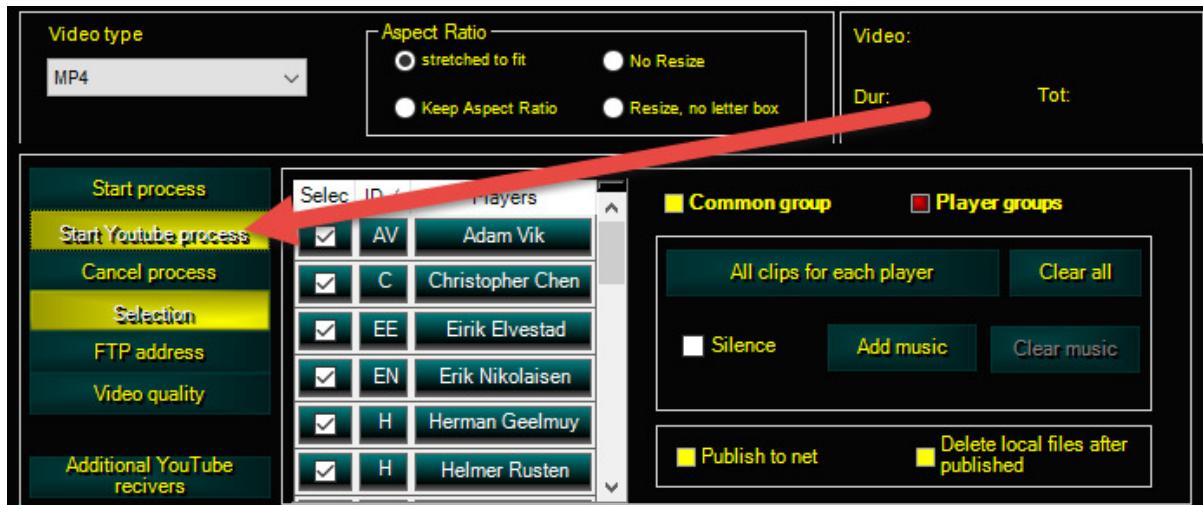

Upload individual videos to each player

As described earlier, select the mp4 format

Select player groups. You can then select 2) Create video upload for each player or 3) select specific players for the upload.

When ready, Click Start YouTube process.

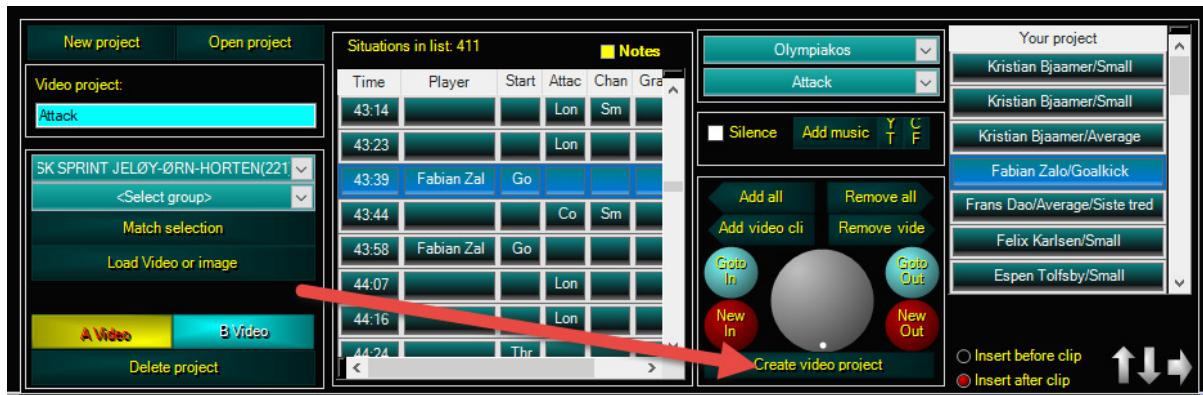

This will start the process with video creation and upload process. The player will receive the individual file. The additional receiver(s) will also receive the video link for the players individual situations/highlights.

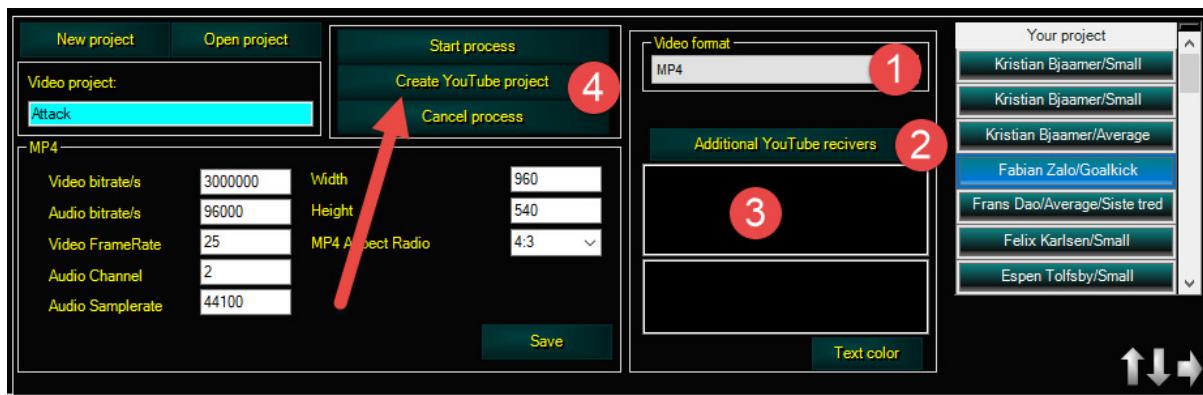

Create upload to Youtube from Projects

Go to Project in Media Maker and select your project. Then open your project you want to upload to Youtube, Click Create video project

- 1) Select MP4 format
- 2) Add/select additional receivers
- 3) Add text in the video
- 4) Click Create Youtube project

As described earlier, select the players for receivers of the Project file.

Each player and all additional receivers will get a video link in their email system that will open the video in Youtube.

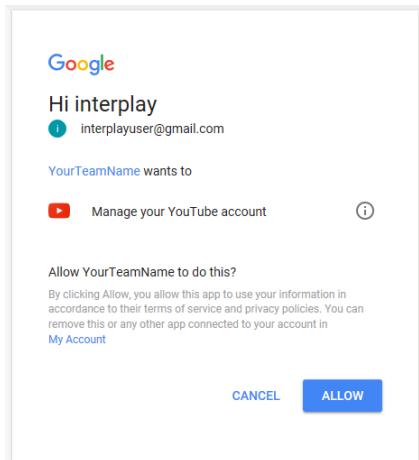

First time upload

8) Google ask you to Allow

First time you test the upload and Google/YouTube have made all ready for you, then Google will ask you to accept that your Accounts can be used. Google will also ask you to confirm your new email connected to the account. Look for a Dialog box from Google like this where you can see the name for your account in Google (YourTeamName)

The image shows two side-by-side screenshots of the Google sign-in interface. The left screenshot shows the 'Sign in' step, where a user has entered their email 'interplayuser@gmail.com' into the 'Email or phone' field. Below the field is a 'Forgot email?' link and a blue 'NEXT' button. The right screenshot shows the 'Sign in to your new Google Account (Next)' step, where the user has entered their password '*****' into the 'Enter your password' field. Below the field is a 'Forgot password?' link and a blue 'NEXT' button. Both screenshots feature the classic Google logo at the top.

Allow that Interplay can use the account. Click "Allow"

If you have other accounts, then log into your new Account with the option "Use another account".

Use another account

Then "Sign in" in your new account and "Allow" as described above.

Good Luck!
